# Why Choose Vestec?

Parkside Professional Products is a leading manufacturer and distributor of innovative sanitation solutions in Canada for over a century. Our innovative approach to cleaning products and amenities along with our unparalleled level of service continues to be the reason that we succeed.

Through innovation we continually bring to market new technologies and processes that empower our customers to run their businesses more efficiently, while focusing on training, services and technical expertise that exceed their expectations.

We are synonymous across all of our branches to provide you with the same experience at every hotel, lodge, or restaurant. Parkside product specialists and service team help make your experience an easy and bright one.

## **A broad choice, whatever the application**

Vestec's Auto Feed System and chemical dispensing equipment is engineered specifically for the market it is used in and incorporates the latest in technology. From home style laundry machines to commercial tunnel washers, from under counter dish machines to commercial style dish washers, Parkside's Laundry and Warewash brand—Vestec—has a solution for your dispensing needs.

### **Laundry Applications:**

- On Premise Laundry (OPL)
- Corrections
- Educational
- Athletic
- Hospitals
- Health Care
- Industrial
- Hospitality

### **Warewash Applications:**

- Hospitals
- Health Care
- Restaurants
- Educational
- Hospitality

## Domestic Laundry Products

For use in both domestic and commercial applications, we have products designed for top loading, and front loading domestic type machines. Concentrated formulas that also reduce waste and are better for the environment. These products feature biodegradable surfactants, a neutral pH, are formaldehyde-free, phosphate-free, and have not been tested on animals.

### Vestec™ 790 Liquid Laundry Detergent

A concentrated liquid laundry detergent designed for top loading, domestic type machines. It is ideally suited for cleaning personal clothing. (4x4L/cs, 20L)

### Vestec™ 792 HE 2X Liquid Laundry Detergent

A low foaming liquid laundry detergent designed for the next generation of front loading washers that save water and energy. Its concentrated formula reduces waste and is better for the environment. Vestec He 2X contains biodegradable surfactants, including polyglucosides derived from corn. It is made with recyclable packaging, contains no phosphates, and has not been tested on animals. (2x4L/cs)

### Vestec™ 795 Liquid Laundry Softener

An effective, economical laundry softener designed for top loading domestic machines. Use with low alkaline detergents that require no souring. Leaves colours and whites clean and bright. (4x4L/cs, 20L)

### **Vestec™ 790 All Purpose Powdered Laundry Detergent Bulk**

Its colour safe oxygen bleaching agents combine with its multi-surfactant system and enzyme stain removers to give brightness back to dull clothing. Vestec 720's special free-rinsing formula prolongs garment life by cleaning fabrics gently. It is designed to clean most shirt collars and cuffs without pre-spotting. (20Kg)

### **Vestec™ 725 Heavy Duty Powdered Laundry Detergent**

Formulated for cleaning of synthetic and natural fabrics. It rinses easily while removing stubborn soils. Effective in most water conditions, it is an excellent choice for high volume commercial or industrial applications where a powder is desired. Do not use in domestic laundry machines. (225Kg)

## **Manual Feed Laundry Detergents**

When automated systems don't make sense or when they need an extra boost, choose our concentrated manual feed laundry detergents to work hard and attack stains. There are both liquid and powders available for heavy duty, high volume commercial or industrial applications. Products work in hard or soft water, and are designed to clean and rinse without residues.

### **Vestec™ 730 Heavy Duty Powdered Laundry Detergent**

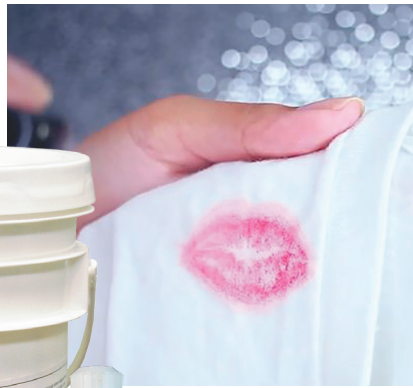

Made with advanced optical brightening, water conditioning and stain removal properties for the exceptional cleaning of synthetic and natural fabrics. It rinses easily while removing stubborn soils and preventing soil redeposition. It is an excellent choice for heavy duty high volume commercial or industrial applications. (20Kg)

### **Vestec™ 735 Heavy Duty White Powdered Laundry Detergent**

A traditional, heavy-duty, powdered laundry detergent that is ideally suited for top-loading commercial and domestic laundry machines. (15Kg)

### **Vestec™ 890 Concentrated Enzymatic Liquid Laundry Detergent**

A concentrated, liquid laundry detergent designed for use with the Vestec Autofeed Laundry System. The power of multi-functional surfactants, buffered alkalinity and a high level of dual enzyme components are brought together to yield cleaning results that go far beyond competitive products. Vestec 890 is effective in all water conditions and easily removes all forms of tough protein and oil-based dirt and stains. It is ideally suited for health clubs, golf courses, retirement and nursing homes and other facilities where protein-based soils are prevalent. (4x4L/cs, 20L)

## Pre-Spotters & Stain Treatments

When system or manual laundry detergents can't quite remove all of the stains, choose something from our range of pre-spotters and stain treatments. These products will handle all kinds of different problem soils. There are products designed to treat specific stains or just unknown spots and powdered chlorine or colour safe bleaches can be used to brighten fabrics.

### Vestec™ 745 Colour Safe Bleach

A powdered, colour safe, oxygen-based bleach additive for applications where traditional chlorine bleach is not suited. (11.3Kg)

### Vestec™ 747 Powdered Dry Chlorine Bleach

A concentrated dry chlorine bleach for use on heavy duty laundry applications where the extra destaining of active chlorine is desired. (18Kg)

### Vestec™ 762 Powdered Rust and Scale Remover

An acidic based, powdered rust and scale remover to be used in a separate wash cycle. It effectively removes hard water and rust stains from laundry. Consult your technical representative for proper use dilution. (18Kg)

### Vestec™ Laundry Pre-Spotter for Rust

Effectively removes rust stains and scale deposits from laundry. This advanced multi-acid system is safer than traditional hydrofluoric acid solutions. (6x946ml/cs)

### Vestec™ 770 Laundry Pre-Spotter for Protein Stains

A highly effective pre-spotter specifically designed to treat protein and starch based stains. Excellent results can be expected on blood, urine food stains, and some lipsticks. (6x946ml/cs)

### Heavy Duty Acidic Laundry Pre-Spotter for Rust

Safely removes rust stains from fabrics. Can be used for laundry and carpet cleaning. (6x946ml/cs)

### Vestec™ 775 Laundry Pre-Spotter for Oily Stains

formulated to pre-treat greasy oil stains like lipstick, makeup and vegetable oils. Solvent surfactant based. Safe for use on most fabrics and colours. (6x946ml/cs)

### Vestec™ 778 Laundry Pre-Spotter for General Stains

A general purpose spotter for use where only one product is desired. It's unique formula attacks most general spots without harming fabrics. (6x946ml/cs)

### Vestec™ 991 Laundry Detergent Solvent Emulsifier

Developed for the removal of non-water soluble stains such as paints, primers, oils and grease. Used with the Vestec Automatic Laundry System. (4x4L/cs)

## System Destainers

System destainers are used in conjunction with the other products in the Vestec AutoFeed System to help clean and brighten fabrics. They consist of highly concentrated, commercial-strength chlorine bleach or hydrogen peroxide. They come in multiple sizes to suite your laundry volume and space requirements. These products make whites whiter and can take the dullness out of colours. They also work to remove stains simultaneously.

### **Vestec™ 960 Liquid Chlorinated Laundry System Destainer**

A powerful, chlorinated destainer for use in institutional laundries. More effective than home laundry bleach, Vestec 960 has superior whitening action, stain control, deodorizing and sanitizing characteristics. Vestec 960 is designed for use with the Vestec Autofeed Laundry System. (210L, 116L, 55L, 20L)

### **Vestec™ 970 Liquid Colour Safe Hydrogen Peroxide Laundry System Destainer**

A powerful, hydrogen peroxide based destainer for use in institutional laundries. More effective than home laundry bleach, Vestec 970 has superior whitening action, stain control, deodorizing and sanitizing characteristics. Vestec 970 is designed for use with the Vestec Autofeed Laundry System. (55L 20L)

### **Vestec™ 880 Liquid Laundry System Detergent Concentrate**

A concentrated neutral laundry detergent for use where table linen is being washed. It's new, unique surfactant system easily lifts and emulsifies stains from most types of fabrics. Its soil suspenders and optical brighteners assure a high level of whiteness retention.

(210L, 55L, 20L)

### **Vestec™ 882 Liquid Alkaline Laundry System Detergent Concentrate**

An alkaline laundry detergent specifically formulated for use with the Vestec™ Autofeed Laundry System. It utilizes a series of highly active surfactant components, with complex buffered alkalinity and soil suspending agents. Penetrating deep into fabric's fibers, it emulsifies and removes the toughest soils.

(210L, 55L, 20L)

## **System Detergents**

Designed to be used with the Vestec Autofeed System consisting of computer controlled pumps set to automatically inject the proper amount of chemicals into your wash at the correct time. We manufacture highly active laundry detergents designed so that small dosages will give big results. We have several choices for cleaning exceptionally greasy soils, uniforms, table linens, bed linens and towels.

### **Vestec™ 883 Liquid Alkaline Laundry System Detergent Concentrate**

A concentrated, enzymatic, liquid laundry detergent designed to be used where alkalinity is not required. A multiple blend of surfactants work hard to effectively emulsify soils. It can also be used to boost detergency in conjunction with other Vestec™ system detergents.

(55L, 20L)

### **Vestec™ 885 Liquid Laundry System Detergent Super Concentrate**

Our most concentrated laundry detergent, designed primarily for large commercial laundries. Vestec™ 885 works well at very lean dilutions on cotton and poly linens. It's unique formula works efficiently at reduced water temperatures and water levels.

(210L, 116L, 55L, 20L)

### **Vestec™ 940 Liquid Laundry System Fabric Softener Concentrate**

A premium blend of softening ingredients designed specifically for use with the Vestec Autofeed Laundry System. In addition to leaving a smooth, soft finish, Vestec 940 reduces water retention which decreases drying time. Vestec 940 is highly effective at reducing static build-up and leaves a fresh, clean scent. (210L, 116L, 55L, 20L)

## **System Fabric Softeners**

Designed to be used with the Vestec Autofeed System, which includes computer controlled pumps set to automatically inject the proper amount of chemicals into your wash at the correct time. System fabric softeners are a premium blend of softening ingredients that leave fabrics smooth and soft. They also reduce static build-up, reduce water retention, speed drying, and leave a fresh, clean scent. They come in multiple sizes to suit your laundry volume and space requirements.

### **Vestec™ 945 Liquid Laundry System Fabric Softener Concentrate**

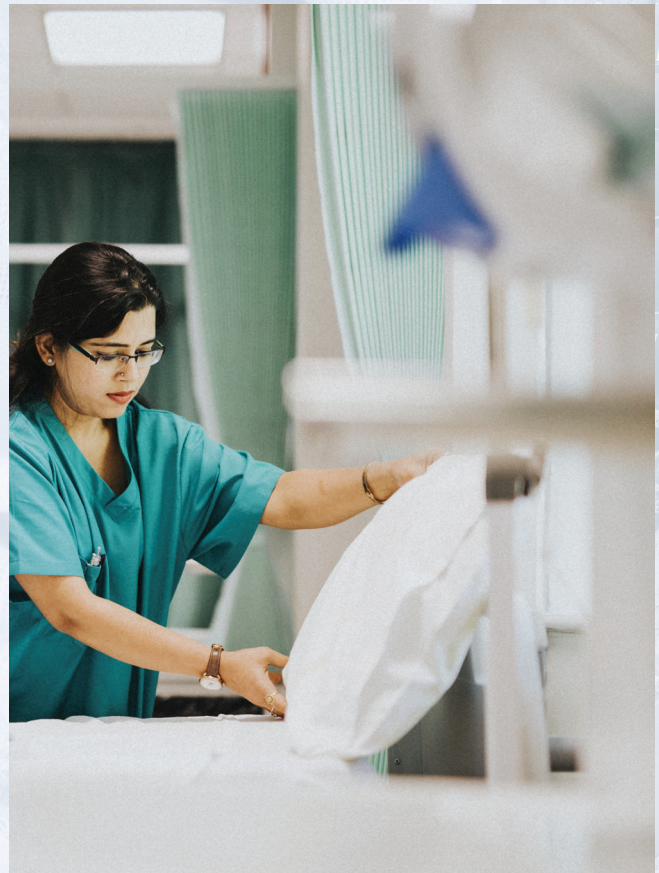

A phosphate free laundry softener is a premium blend of softening ingredients designed specifically for use in professional laundries where static buildup is a major problem. In addition to leaving a smooth, soft finish on fabrics, Vestec 945 reduces water retention and decreases drying time. It is designed for use in the Vestec Auto Feed System.. (20L)

## System Neutralizers and Softeners

Our formulas are pH balanced to eliminate skin irritation and minimize discolouring caused by alkali residue. They reduce fiber stress as they soften and eliminate static cling to prolong the life of your laundry.

### **Vestec™ 930 Liquid Laundry System Neutralizer and Softener Concentrate**

A liquid formulation that combines four laundry steps in one easy to use combination product. First it “sours” the laundry by reducing any residual high pH, then softens the fabric with a high grade softener. This combination provides premium softening and an optimal fabric pH. The optical brighteners leave the fabric looking brand new, while the special fresheners leave a clean, fresh scent. Always use as the final product in a laundry program. (210L, 116L, 55L, 20L)

## System pH Boosters

Our variety of system pH boosters are designed to work with your laundry system to increase the performance in the suds or break operation of the wash cycle. We offer various pH booster intensities to suit your individual needs. System pH boosters can be a helpful tool in removing fats, oils, and greases from your laundry.

### **Vestec™ 912 Liquid Alkaline Laundry System pH Booster Concentrate**

A clear, alkaline laundry builder and co-detergent designed for use with the Vestec Autofeed Laundry System. Built without phosphate water softening agents, Vestec 912 instead uses a proven formulation developed specifically for use with Vestec Laundry Detergents to further increase performance in the suds or break operation of the wash. Vestec 912 features effective saponification and removal of animal fats, vegetable oils and greases. (210L, 116L, 55L, 20L)

### **Vestec™ 916 Liquid Alkaline Laundry System pH Booster for Hard Water**

A concentrated blend of high alkaline detergent builders, emulsifiers, water conditioners and soil suspension agents. It is designed to be used in combination with a liquid laundry detergent to give maximum Ph boost especially in hard water condition. (210L, 116L, 55L, 20L)

### **Vestec™ 920 Liquid Alkaline Laundry System pH Booster Super Concentrate**

A concentrated blend of high alkaline detergent builders, emulsifiers, water conditioners and soil suspension agents. It is designed to be used in combination with a liquid laundry detergent to give maximum Ph boost. (55L, 20L)

## System pH Neutralizers

System pH neutralizers are acidic blends of concentrated liquids that serve the dual function of neutralizing residual alkalinity and effectively controlling rust and scale deposits on fabrics. They are ideal for use before the ironing process.

### **Vestec™ 935 Liquid Laundry pH Neutralizer Concentrate**

A concentrated, organic-based sour formulated for use with the Vestec Autofeed Laundry System. It is a proprietary blend, which serves the dual function of neutralizing residual alkalinity and effectively controlling rust and scale deposits on fabrics. Vestec 935 ideally conditions laundry prior to the ironing operation and is ideally dispensed by the Vestec Autofeed Laundry System.  
(210L, 116L, 55L, 20L)

### **Vestec™ 938 Liquid Laundry Sour**

a concentrated mix of organic and inorganic acids for use as a sour with the Vestec Autofeed Laundry System. Vestec 935 serves the dual function of neutralizing residual alkalinity and effectively controlling rust and scale deposits on fabrics. Vestec 935 conditions laundry prior to the ironing operation.  
(210L)

### **Vestec™ 990 Liquid Laundry Pre-Soak and Stain Remover System Concentrate**

A special neutral, nonionic pre-soak for removal of greasy spots and stains from institutional laundry. Its aids the laundry detergent by breaking down both water-soluble and non-water soluble stains from cotton and polyester fabric. It can be added directly to the laundry machine for superior results. (55L, 20L)

### **Vestec™ 991 Liquid Laundry Detergent Solvent Emulsifier System Concentrate**

A concentrated solvent emulsifier developed for the removal of non-water soluble stains such as paints, primers, oils and grease. It is used in conjunction with the Vestec Automatic Laundry System works on a variety of soils. (20L)

## **System Specialties**

Our system specialty products include solvent free emulsifiers, solvent emulsifiers, and chlorine neutralizers. The solvent free emulsifiers are a special neutral nonionic presoak designed to remove greasy spots and stains from institutional laundry. This concentrated liquid blend is perfect for both water-soluble and non-water soluble stains. Our solvent emulsifiers are designed to remove the toughest non-water soluble stains like paints, primers, oils, and grease. The concentrated neutralizer formula is designed to stop the bleaching action on fabrics and reduce the amount of residual chlorine flowing into your waste system.

### **Vestec™ 995 Liquid Laundry Antichlor Chlorine Neutralizer**

A concentrated neutralizer, designed to stop the bleaching action of sodium hypochlorite (bleach) on fabrics. In addition, it reduces the amount of residual chlorine flowing into the waste system. (55L)

## System Starch

A synthetic blend designed to leave a smooth and soft, stain-resistant finish on fabrics. The starch reduces water retention thereby speeding up the drying process. System starches are highly effective in adding body to fabrics and preparing them for the ironing process.

### **Vestec™ 950 Liquid Laundry Pumpable Starch System Concentrate**

Vestec 950, a synthetic starch, is a premium blend of ingredients designed specifically for use with the Vestec Autofeed Laundry System. In addition to leaving a smooth, soft finish on fabrics, Vestec 950 reduces water retention which decreases drying time. Vestec 950 is highly effective at preparing for the ironing process and adds body and stain resistance to fabric. (20L)

*For over 100 years, we have been developing products that improve chemical performance, reliability and our customers' bottom lines.*

We are committed to delivering superior customer support and ensuring unparalleled responsiveness to customers. Featuring advanced chemistry and equipment, that helps you manage the total cost of laundry including water and energy consumption. Your laundry program needs to provide fresh and soft results that are also hygienically clean, while reducing operational costs. Our programs deliver premium softness to help minimize skin abrasion, and achieve optimal pH levels to help maintain healthy skin.

Consult your local Vestec™ product distributor to help choose the right products for your application.
